IIT DOCTOR OF PHILOSOPHY IN ARCHITECTURE

More than ever, the world needs more informed, more innovative, and more critically involved architects. Population growth, changing climate, and continued depletion of natural resources call into question received planning and design methods. Architects have emerged among design professionals to lead the understanding, organization, reclamation, and reimagining of our cities to meet the challenges of our future.

Founded in the late 1990s as a laboratory for applied research and scholarship, Illinois Institute of Technology's Ph.D. Program in Architecture attracts graduate students from the Americas, Asia, Europe, and Africa; these students converge onto our National Register of Historic Places Mies-designed campus to research a broad range of topics within a multi-disciplinary environment. Students enrolled in the Ph.D. program explore the historic and contemporary intersections among architecture, culture, and technology through two areas of specialized research: History, Theory, and Criticism (HTC), and Technologies of the Built Environment (TBE).

ACADEMIC AND PROFESSIONAL OPPORTUNITIES

IIT Architecture offers the only program leading to a Ph.D. in Architecture in Chicago, a metropolis characterized by a dynamic architecture culture (home of the only Architecture Biennial in the U.S.), prestigious research universities and institutions, and leading firms that drive the profession. Ph.D. students are encouraged to gain teaching experience and pursue internships within research institutions (Canadian Centre for Architecture, Council for Tall Buildings and Urban Habitat, University of Chicago) as well as local firms with a global reach (HOK, Perkins+Will, SOM). Ph.D. graduates are employed as faculty in academia and in professional practices throughout the U.S. and the world.

Visiting researcher, visiting professor, visiting short-term scholar, visiting scholar, research associate, and senior research associate opportunities are available. Visit arch.iit.edu/study/iitac-research-center for information. To discuss research possibilities, contact Michelangelo Sabatino, Director, Ph.D. Program in Architecture, at msabatino@iit.edu.

FACULTY

MICHELANGELO SABATINO

Professor of History and Theory,
Director, Ph.D. Program in Architecture

MARSHALL BROWN

Associate Professor

JOSEPH CLARKE

Assistant Professor

MAHJOUB M. ELNIMEIRI

Professor

MARTIN FELSEN

Associate Professor

MAUREEN FLANAGAN

Professor of History; Chair, Department
of Humanities; Interim Chair, Department
of Social Sciences; Lewis College of
Human Sciences

FRANK C. FLURY

Associate Professor

LAURA FORLANO

Assistant Professor of Design,
Institute of Design

KEVIN HARRINGTON

Professor Emeritus of Architectural History,
Department of Humanities,
Lewis College of Human Sciences

RON HENDERSON

Professor, Director of Landscape
Architecture Program

MATT HERMAN

Adjunct Associate Professor; BuroHappold

SEAN KELLER

Associate Professor, Director of History
and Theory

ROBERT J. KRAWCZYK

Professor, Associate Dean of University
and Academic Affairs

EVA KULTERMANN

Associate Professor, Associate Dean
of Curriculum

PETER LAND

Professor

LUKE LEUNG

Part-time Professor; Director of Sustainable
Engineering, SOM

HARRY FRANCIS MALLGRAVE

Distinguished Professor Emeritus of History
and Theory

VEDRAN MIMICA

Professor, Associate Dean of Research

LLUÍS ORTEGA

Associate Professor

ULLICA SEGERSTRALE

Professor of Sociology, Lewis College
College of Human Sciences

BRENT STEPHENS

Assistant Professor of CAEE, Armour College
of Engineering

ANTONY WOOD

Research Professor of Tall Buildings;
Executive Director of CTBUH
