INTERNSHIP DESCRIPTION

bKL Architecture

At bKL Architecture, we are committed to designing projects that enhance the contexts in which we build. With an understanding of technology and sustainable practices, we respond to the needs of clients, users and surrounding communities, while anticipating future uses and desires.

bKL Architecture's open studio environment encourages a spirited exchange of ideas. Our culturally diverse team brings together a broad range of skills, experiences and backgrounds to create a vibrant atmosphere and design process. At the center of our process is a focus on in-depth analysis, experimentation and collaboration. Our team designs projects that enrich sites and cities around the world in which we build. <http://bklarchitecture.com/firm/>

bKL Architecture looks for students who have strong visualization and conceptual skills, are collaborative in their process and have a passion for design. Candidates would be expected to work in Revit, Rhino, and Adobe programs. Interns at bKL are exposed to all phases of design and work closely with the design team on everything from conceptual physical modeling to rendering, diagramming, and planning. Please send letter, resume, and work samples to the following:
